

## QLASH - AIR FRESHENER AIR FRESHENER

**ITEM NUMBER:

### PRODUCT DESCRIPTION

BlackSatino Qlash air freshener creates an exclusive fragrance experience. Together with BlackSatino SparQ, BlackSatino offers two surprising fragrances for soaps, toilet seat cleaner and air freshener. These aren't standard toilet fragrances, but rather specially developed perfumes for BlackSatino toilet areas.

Maximise the fragrance experience by alternating between SparQ and Qlash. This keeps the olfactory senses of toilet visitors stimulated with a positive effect on the overall toilet experience.

Qlash has a top note of citrus, creating a fresh fragrance, reinforced by the floral character of the heart notes, which include jasmine. The sweet, powdery tones are combined with the oriental fragrances from the base notes of the Qlash, made up of musk, cedar and patchouli. This combination makes Qlash an exotic, warm and sensual fragrance.

The SparQ and Qlash perfumes that are used in the soaps, toilet seat cleaners and air fresheners are certified from Cradle to Cradle. This means they are 100% safe for people and the environment.

The air freshening system has no electronics or batteries and therefore fits perfectly within BlackSatino's sustainable philosophy.
